

Features

- Metal and ABS versions available
- Metal version available in Oyster Grey or Arch White
- Provides the facility to hold documents i.e. Operation and Maintenance Manuals
- Lockable front door
- Internal Key holder bracket
- Designed to compliment the AMPAC range of enclosures

Description

AMPAC offers ABS and metal document cabinets designed to compliment the range of AMPAC's fire control panels.

The cabinets can hold in excess of 100 A4 sheets of fire and security information that is relevant to the premises such as:

- Certificates for Design Installation and Commissioning
- Operation and maintenance manuals
- 'as fitted' drawings
- Log books

The cabinets are fitted with a lockable front door for security and comes complete with an internal key holder bracket to allow easy storage of security keys

Whilst the ABS cabinet is available only in cool grey, there is a choice of Oyster Grey or Arch White with the metal cabinet option.
